PUBLIC CORRUPTION.

"In plain sooth, the age of sensuality, of unchecked corruption, of dense, class ignorance, is coming down on us like night. A free press should have given more notes of warning than it has; but the press dislikes, in a free country, to print unpalatable truth, even when it discerns such truth, and the journals that profess "fearless devotion to principle" are notoriously the ones whose articles betray the most laborious solicitude to catch the applause and flatter prejudice of the greatest number. Meanwhile, at what are called our "great centres;" coarse brutes, who ought to be digging railways or drawing hand-carts, lay down the law for the whole community, and by dint of vast wealth, amassed under circumstances impossible in any other civilized country, degrade the social tone, and spread in every direction an unbridled rage for the pleasures of the senses. Intellectual elevation or ambition is scoffed at, and those who strive to inculcate a taste for better things are either hated or despised. Nothing is thought of but the delights of the table, of fine clothes, of showy dwellings and equipages—in a word, of physical raptures of every description. If there is a pretense at anything else—whether in the pulpit, in the theatre, or in literature—the pill must be gilded so as to appear "sensational."—All this is so widely admitted, so shamefully notorious, that its recital is trite enough; we repeat it merely in elucidation of the subject under discussion. It is impossible when people think all things of their bodies and nothing of their minds, that either a Democratic or any other pure form of government can long be maintained. Unless a great change comes over American people, it will not be maintained by themselves. They are rushing toward the precipice at railway speed, and the universal corruption that good men deplore is the prelude of a decomposition which is as certain as fate."—*Round Table.*

FORNEY.

Forney was serenaded on Thursday last by the republican negroes at Lynchburg, Virginia, where he and his party halted on their pilgrimage southward. He told the negroes that he was going South as "a messenger of peace, good will and fraternity," at which the sable crowd shouted "good," "good," "good." It was very good! What an angel of peace is Forney! While Forney is crating to the negroes of the South, the white people of that unhappy land will not forget that it was this same individual who daily repeated in the *Press* last summer, the savage and vindictive proposition to revive, for campaign purposes, all the hatred engendered in the war. When Forney asserts that he is on an errand of good will, the people of the South will not trust him. If he swears it, they may be sure he means mischief. Not one of the atrocious measures proposed in Congress for the subjugation of the South was there that did not find an eager and officious advocate in this man Forney.—Every fraudful scheme to stifle the voice of the people, to wrest from them their State constitutions, and put them under the heel of the soldiery, found a ready apologist in this missionary of new born love for the South. He urged on Congress the atrocious proposition to arm the negroes of the South, and set them at the throats of their white neighbors—a proposition from which every radical who had a heart in him, shrank in horror. In his malignity, he invented tales of terror, he coined wild and incredible stories of the white man's barbarity to the negro of the South, in order to make party capital. Yet he goes among the Southern people now with honeyed words on his false lips, and boasts of his feelings of fraternity! With the same cruel complacency did Marat boast of his love of his fellows while urging his party to the commission of every atrocity, in his newspaper so appropriately named the "Friend of the People."—*Harrisburg (Pennsylvania) Patriot.*

COFFEE AS A CIVILIZER.

Dr. Draper makes out a very strong case in favor of "coffee as a civilizing agent."—He says: Those who have made it a subject of study and examination tell us that when prepared as a strong infusion without milk, coffee acts powerfully on the sympathetic nervous system and the organs supplied by it, quickening their action and increasing their vivality. That it renders the contraction of the heart and other muscles more powerful; enables the body to resist cold, moisture, and the deadly poison of miasmatic districts; counteracts the langor of torrid climes; prevents or ameliorates attacks of spasmodic asthma; alleviates laxity of the kidneys and bladder; and it is even said that oculus is not as common since it has been generally used. It also acts with energy on the brain, removing the sensation to fatigue and disposition to sleep, which has always made it a favorite with students. It obviates the excessive indulgence in the use of wine and spirits; is an antidote to opium, belladonna, and the vegetable poisons that act on the brain; and relieves the nervous headache to which many are subject. In brief, it is not merely a fashionable potation—it is one of the great civilizing agents; for, by increasing the power of accomplishing brain and muscle work, it has increased the power and influence of man.

"THE BEAUTIFUL SNOW."—Periodically the well-known and greatly admired poem, "The Beautiful Snow," goes the rounds of the newspapers accompanied generally by a brief history of the author. By a majority of papers the authorship is credited to "Dora Shaw," a St. Louis actress. By others it is insisted that a girl who died in a hospital at Cincinnati wrote it, and that it is the faithful story of her sad experience. The "Rev. P. Mason" has written a letter to the New York *Tribune*, asserting that the poem was written by Mr. W. A. Sigourney, and published in a weekly paper in New York called the *Golden Age* fifteen years ago. To attribute this poem to Dora Shaw or Mr. Sigourney either is simply ridiculous; neither one of them wrote it.—Now and then a poem of rare beauty appears anonymously, and is immediately claimed by some obscure writer of mediocre verses. It was not long since that that strong minded female, Mrs. Julia Ward Howe, laid violent hands on one of Owen Meredith's poems ("Whom First we Love we Seldom Wed,") and had it going the rounds as her own. Out upon these poetical hyenas.—*Louisville Courier-Journal.*

THE DIFFERENCE.

The old fable about the difference between your ox being gored and my ox being gored, finds an illustration in our affairs. The "Alabama," which was commanded by our immortal seaman, Admiral Raphael Semmes, was built near Liverpool, England, by the Lairds, leading ship-builders. It went to sea, "on a pretended pleasure expedition," getting safely out of the port of Liverpool. Her crew afterward joined her, and her guns and stores were brought to her from Liverpool by a British steamer. Our people—our Northern brethern—Brother Sumner for instance, argues that this was a clear violation of neutrality laws, &c. Well it may be. For our present purposes, as Radicals insist so strenuously upon it, we grant the claim, yield assent to the proposition. But *how* will this prove it right to sell munitions of war to Cuban insurgents? Or *how* will the law upon the subject permit fillibustering expeditions to be fitted out in our cities, and that too, where the matter has become notorious, and the authorities must know all about it? Is it a *crime* in England to permit her ship-builders to sell to the South and her *sailors* to join Confederate vessels, and yet a *virtue* in Yankeedom to favor the Cuban revolutionists, and to supply thousands of *soldiers* to recruit the armies and strengthen the waning fortunes of the "rebels" of the island? What will Spain say to such hair-splitting, such absurd and blundering injustice? Our politicians and papers resort to the nicest and obscurest differences as to the law, to find some semblance of justification for the latter course, but the entire thing is too manifestly ridiculous and illogical to deceive any one for a moment. The New York *World*, amongst other things, says this:

"There was not, either before or after the Queen's proclamation, good ground of complaint against England, upon our own usage and practice in this particular, that her citizens sold arms and munitions of war to the rebels, deliverable to the purchasers in her own territory, to be transported thence into the Confederacy. Nor can we complain that English tradesmen sent, at their own risk of capture and confiscation, articles contraband of war to the Southern ports for sale. No neutral nation is bound to prevent such commercial dealings. It there be fair *exportation* of the contraband articles from the neutral country, and either belligerent has, according to his means, opportunity to capture the merchandise on the voyage, there is no neutral offence. In like manner we in the United States have held that a neutral may sell a ship of war as an article of merchandise to a belligerent. Mr. Justice Nelson has recently so ruled in the case of the Meteor. All this trade, both the United States and Great Britain can, under the law of nations as interpreted by themselves, carry on to-day with the insurgents in Cuba, *without* any recognition of the latter as belligerents, and to-morrow, in like manner, *with* such recognition and a superadded proclamation of neutrality."

This statement of the matter may do.—But it is rather *flatly* drawn for practical purposes. If it is right for the United States *government* to favor Cuban revolutionists—to permit all sorts of munitions of war to be sold them—to allow its people to hold meetings of sympathy where a vast amount of whipped syllabub patriotism is handed around—if all this is right, and we dare say it is, then surely it could not have been any great crime in England and the Lairds, when the latter sold the Alabama and the former permitted it to escape to sea. The whole difficulty, as far as the Northern people are concerned, lies in the simple fact that the Alabama was the English ox that gored the Yankee ox, and that is highly criminal. In the case of Cuba, it is the Yankee ox that gores the Spanish ox and that is highly creditable.

WHAT WE SAW AT HALIFAX.

We spent Monday and Tuesday at Halifax Court. We saw Judge Watts upon the bench and Solicitor Cox prosecuting at the bar. In attendance on the Court we saw Mr. E. Conigland, Mr. Moore, Mr. Peebles, Gen. Ransom, Mr. Plummer, Mr. Branch, Mr. Burton, Mr. Wesson, Mr. Solomon, Mr. Finch, Mr. Williams, (Henry G.) Mr. Hill, Mr. Long, Mr. Mullen and Col. Jenkins.—Several of the Junior members of the bar we had never met before. We wish for them all the success and well merited distinction which belong to the elders of the bar whom we have named. We saw 132 cases on the State docket, mostly indictments for larceny, against Republican "gentlemen" who have been initiated into the secret societies of which Gov. Holden is the head centre and grand President. There were two capital cases, one against Ben Wood, for the murder of William Drury, and John Freeman for the murder of George Jackson. Freeman had fled to parts unknown before this arrest. On the civil trial docket were 509 cases. On the appearance docket were 210 cases.

The Wade Ditcher murderers, who broke jail, had all been recaptured, at the expense of some thousand dollars to the State, the Governor having offered rewards for their arrest. They are three in number, Augustus Baker, Jim Thomas and George Johnson, all "gentlemen" of the league, who murdered Wade Ditcher in the old Hotel at Weldon and threw his body in the river. They have committed their last murder, unless the Governor, who is grand President of the league, shall pardon them as he did Willis, who murdered Anderson Selby, in this city. Willis is a member of the league, and the same who broke jail here last week, after attempting to murder the jailor. We see no good reason for pardoning the Ditcher murderers—we saw none for pardoning Willis—we saw none for pardoning the ten negroes of the league who were sentenced to imprisonment, by Judge Thomas, for whipping a man of their color for voting the Democratic ticket.

This last mentioned case was the greatest abuse of Executive clemency ever recorded, except that of President Johnson and Congress, pardoning Holden himself after he had, in the *Standard*, called the President, Edward Everett and John C. Breckenridge, three of the most elegant devils out of hell, and that Andrew Johnson had been bought to the Federal side, in our late war, by Abbot Lawrence, of Boston, who paid him down one thousand dollars.

The abuse of Congress consisted in pardoning or relieving his disabilities, the man who was first to ask for the head of "Abe Lincoln!"

If the Governor should stand silently by and see the law executed, the Wade Ditcher murderers will all be hanged, and that will create a vacancy in the League, and the Radical party will lose three votes.

We saw many of the best farmers, not of Halifax only, but of the State, among them William Smith, Richard Smith, Thomas Nicholson, and our friend Mason L. Wiggins, with whom we had pleasant talks about the labor and agriculture of Halifax. We saw Mr. Powell, of Edgecombe, who expressed the opinion that one third of the labor had gone from the fields to the towns and villages, railroads and public works. We were astonished at the declaration, but when we reflect upon the number in jail, and the idleness of the women who were once field hands and producers, we are satisfied that he was under rather than over the mark. Other sights we saw, which we must reserve for to-morrow's paper.

GEN. LITTLEFIELD.

The General's paper, the *Standard*, says we can't get off an article without the use of Gov. Holden's name. We think the General should be satisfied, for if we get off articles altogether on Holden, then the General will not have public attention drawn to him. If Senator Sweet could have succeeded in getting the General before the Committee on Bribery and Corruption, we might get off articles on the General. Yes! Get off a book!—a volume! We thought to get off an article on the General without using the Governor's name by giving an account of how the General got the State printing and binding on the last morning of the session when there was no quorum in the House; and we can't even do that without the use of the Governor's name, for the act provides that the Governor shall appoint the State Printer, and the Governor has appointed Littlefield, State Printer. Littlefield helped the Governor by purchasing the *Standard*, so the Governor helps Littlefield.

The Governor pervades everything. We can't speak of Treasurer Jenkin's sale of N. C. Railroad bonds at 65, without alluding to the Governor, for he approved it. We can't speak of that naked, unveiled swindle, 8,000 acres for a Penitentiary, without the use of the Governor's name for the Governor approved of the purchase.

We can't write about the Judiciary of the State—the presentments against them—their want of dignity, learning, sober and decent deportment, but we think of the Governor; that he voted for them, and they are all the men of his choice, except Judge Cloud, who is the Governor's second choice, Starbuck being first choice. Starbuck having been presented by the Grand Jury of the Federal Court and Cloud not, it strikes us that Cloud should have been first choice, and Starbuck second or last; but so it is, Starbuck is first.

We headed this article, Littlefield, as if it should be all about this good looking journalist of the party. When the Governor quits pardoning thieves and murderers, we will leave him out in at least one article, and make it all about Littlefield and his influence with the late Legislature.

One wonders that the South does not rebel anew, when he considers the miserable vermin who have been sent down there as government officials.—*Harper's Weekly.*

We copy this passage because of its remarkable coolness. We have never read any thing more unqualifiedly impudent.—The effrontery is simply—tremendous. The most malignant, unscrupulous, and vindictive paper in the entire North is this same *Harper's Weekly*. It has been more abusive of the people of the South than any of the papers that have for four years traduced our best and truest and bravest. Its vile caricatures, its foul insults make it a stench in the nostrils of every honest and just man. After doing all it could to ruin, degrade and despoil us, it now begins to abuse the carpet-baggers, and dares to wonder how it is, that the long-suffering people of the South have not "rebelled" under the accumulated wrongs that have been so patiently borne. All that this vile sheet says is true, but who cares what *Harper's Weekly* may say? Not even a seedy carpet-bagger cares the snap of his finger for it, for even a carpet-bagger knows how unprincipled and mischievous it is.

VIRGINIA.

Virginia is sufficiently humiliated, we should think, to satisfy even Sumner and Wilson, Chandler and Yates, Logan and Kelley, and even the saint Ashley. According to the latest dispatches, all that is now asked is, permission to vote upon a proposition, whether the conservative men of the State shall have the privilege of the ball in common with the negro! Even Gen. Lee, for the sake of peace, is now content to take the 15th amendment, and so are the so called conservatives. Will Gen. Grant consent to this, is the inquiry, with the abolition of the infamous test oath.—"We are not willing," say the white people, "that negroes be our jurors *exclusively*, but desire that persons of our own race my arbitrate our rights when on trial." Unless this defeated, sheriffs will have no discretion *but to empannel negroes exclusively*, and, in such a state of things, every white man who can will undoubtedly leave the State. Walker (Rep.) has put himself on this platform, and rumor has it that in a few days Gov. Wells will do the same. Suffrage for all negroes is conceded, and an early election is asked to end the agitation, but Gen. Canby does not favor an election before July.—*N. Y. Express.*

PRINCETON—THE UNIVERSITY—DAVIDSON.

In the last number of the N. C. *Presbyterian* "N. McK" advises us to patronize the University *as it is*, apologize for the Professors, and hopes that "our young men will again fill its halls and throng its groves,"—and *The Presbyterian* makes but a very faint objection to "N. McK's" views, closing an editorial notice with, "as a sensible man he (N. McG.) accepts the inevitable and seeks to make the best of it." Now, I beg leave, as a conservative, old school Presbyterian, to dissent *toto cœlo* from these views. We cannot patronize the University *as it is*, 1st. Because it is not *ours*. 2nd. On merely literary grounds. 3rd. *And especially* on moral and religious grounds.

1st. The University, *as it is*, is not ours, we have no part or lot in it, our votes did not make it. Our men are not put in it, our principles are not in it; in fine we *did* not want it, we *do* not want it, and we *won't* have it.

2nd. We cannot patronize the University, *as it is*, on literary grounds, simply because its faculty have very little literary merit. Mr. Pool is a man of very small calibre, and from a merely literary stand-point unfit for his position. I was in College when he was a tutor there, and he had a very poor reputation as an instructor, and if he has made any reputation since then as a tax gatherer, or as a preacher, nobody has found it out, and yet he succeeds Gov. Swain and Dr. Caldwell! 'I was in College with the Prof. of Latin. His standing was very low in his class. I am pretty sure that he was a "tol-mite-man"—that is, that he took the lowest stand possible. Let him publish his standing if this is a mistake, and if he has made any reputation since then as a teacher of a little neighborhood school, nobody has ever found it out, and yet he succeeds Dr. Hubbard and Dr. Hooper in the chair of Latin, and "N. McK" thinks we ought to patronize the University. Prof. Brewer may be a missionary, or the son of a missionary, but "N. McK's" sympathy for him on that account is misplaced, as we do not consider the University of N. C. *missionary ground*, nor do we consider our youth proper objects of missionary labor. Prof. Brewer may have been, as "N. McK" says, a tutor in one Northern college and a Prof. in another. *We do not know any thing about him*, and therefore we do not want him to teach our children, especially as he has shown a predilection for teaching negroes and is inconsistent, declaring that he won't do it any more; but this we *do know*, that successful men in any walk of life do not leave home, carpet-bag in hand, on the lookout for a job, and we do not want to send our children to any but tried successful teachers. The well fed game cock rules his own dunghill, while the hungry carrion crow wanders about in search of some putrid carcass. If Prof. Brewer had had any reputation at home, he would have staid there, but his native Greek blood, and his missionary blood that charm "N. McK." can't atone for his carrion crow blood as a carpet-bag Prof. in the University of N. C. Of Prof. Martling we simply know nothing except that he is of the carrion crow, carpet-bag order, and that is all we want to know of him. Mr. McIver is a native, and as an instructor had a better reputation than Mr. Pool—he is, I believe, a sincere man—but as a sincere radical, a native and a man of fair ability—though nothing more—he is all the more dangerous. Such then are the faculty: McIver, only a second class man; Pool, hardly a second class man; Patrick, no scholar at all and Brewer and Mantling strangers. These men cannot instruct our children.

But 3rd. It is from a moral standpoint that we object most to the University and to "N. McK's." endorsement of it. Radicalism is *rank, rocking infidelity*. Its foundation stone is infidelity, and every stone in the superstructure is infidelity. Distinctly rejecting the Bible and the God of the Bible, it appeals to a law higher than God and the Bible and abrogates them wherever they interfere with its notions of "progress." The Professors at Chapel Hill may be unacceptionable individually in moral character, *but they are Radicals*—They are the educated, and, therefore, the leading men of a party that reeks with the leprosy of modern infidelity and humanitarianism, and he who exposes his child to such influences cannot escape the anathema pronounced against those who break a commandment and teach men so. Jereboam and his house were cursed because, for political effect, he introduced idolatry and infidelity. Ahab and his house were cursed because he was not satisfied with the infidelity and idolatry of Jereboam, but imported the idols, the priests and the infidelity of his neighbors. The curse of God rested on Manassah and his house, because he not only followed the idolatry of Ahab and of his heathen neighbors, but because he exposed his children to the idolatrous fires of Moloch. And the curse of God will surely rest on us if, like Jereboam, from policy, we countenance this Radical infidelity—if like Ahab, not satisfied with our own idolatrous proclivities (and we all have idolatrous proclivities) we patronize and thus endorse this foreign, Yankee, Radical infidelity and humanitarian idolatry, and most of all will the curse of God rest upon us, if, like Manassah, we expose our children to the fires of this Radical Moloch. We are a great people—and, as yet, we are not degraded—and if we preserve ourselves unspotted from voluntary degradation, if we burn no incense to the golden calf that the Yankees so madly worship, if we bow no knee to this Radical Beelzebub's, if we shield our children from the devouring flames of this Radical Moloch, we may yet, with God's blessing, be a happy and a prosperous people, but Radicalism is infidelity, it is an unclean thing, that we must touch not, taste not, handle not.

But where then shall we educate our children? Not at Princeton, nor at any Northern College. The Northern Church is rotten to the core with this same infidelity. Virginia offers the finest inducements; but can we not find a College at home. I believe in no sectarian education—in no sectarian Institution of learning. But why cannot Presbyterians, who at least in N. C. excel other sects as educators, why can not Presbyterians offer inducements at Davidson College equal to any in the South. Let Davidson rise and shine. Now is its time. Let it be cut loose from its sectarian swaddling bands; let it secure live men, enthusiastic, successful teachers like Dr. Chas. Phillips, as Professors; let it rid itself of any old fogies or old fossils among its faculty and trustees and secure the best men in the State, in or out of the ministry, in or out of the Church, as trustees, and the best men in or out of the State, in or out of the Church, as Professors, let it raise its tuition fees to the level of other first class Colleges, let it raise its standard of scholarship so that boys at our first class schools may not when disapproved "quit and go to Davidson College," as has happened in past times; in full let Davidson take warning by the melancholy death before our eyes of the University as it was, where the average standard of scholarship was so low that the diplomas of two thirds of the graduates was a flagrant lie, and let it run squarely against and squarely equal to the Va. University; let these things be done, and Davidson will take a place in the hearts of our people which Chapel Hill never took and can never take.

WORK OF BROWNLOW'S MILITIA.

We find in a late number of the Nashville *Banner* the following account of some of the proceedings of Brownlow's militia in torturing and finally assassinating Captain Alfred Richardson, of Humboldt, Tennessee:

He was charged before a drum-head court martial with the "mutilation of general order," an offence never heard of in the annals of military courts. It was proved and admitted that one word spelled wrong on an order pasted on a telegraph pole had been corrected with a lead pencil. The misspelled and corrected word was "Forked;" the blockhead had had it "Forky," which answered his purposes and proclaimed the man. The court found a verdict of "guilty," and sentenced the defendant to be tied to that same telegraph pole by the thumbs for six hours, and the sentence was executed with savage delight. During the time that the gentleman was tried up four passenger trains passed by, and people looked out in wonder at the rare and humiliating spectacle of a free born American citizen in time of peace undergoing a punishment that would have disgraced the walls of an inquisition. Among those who saw the sight was the Adjutant General of General Thomas.

When Captain Richardson was released, he entered a civil suit against Clingan for $100,000 damages. Eminent counsel was employed, and two of Clingan's farms were attached to make good the suit. He is worth about $40,000, which would go considerably towards paying for his atrocity.—He saw that it was a tight case, and tried every way in his power, to effect a compromise. But he failed.

The next thing was assassination. Two militiamen fired on Captain Richardson as he was going to his house, in the suburbs of Humboldt, late Friday night. He drew a pistol and attempted to return the fire, but failed, and found himself badly wounded by a musket ball just above the knee, after they had fired three times. Captain Richardson recognized the two men who shot at him, and reported who they were to Clingan, but he refused to believe it or to make any arrest.

Captain Richardson is about thirty-three years old. He has a wife and children, was in the Confederate army, and is a gentleman.

BRIEF NEWS NOTES.

The mysterious bullets in New York and Brooklyn, it is asserted, are not shot from air guns, as has been generally supposed, but from a new kind of gun now sold that somewhat resembles the old cross gun except that instead of the arrow or bullet being propelled by the elasticity of a blow, it is in this case accomplished by the equally forcible elasticity of an India rubber strap.

Chinese laborers are still employed to a considerable extent in some of the parishes of Louisiana, and seem to give very good satisfaction.

It is found that, at Philadelphia, the mean velocity of the wind during the entire year is eleven miles per hour—nine miles in summer and fourteen in winter. At Trenton its annual average is nine miles per hour. The mean velocity of the wind at sea is estimated at eighteen miles per hour.—*Loomis.*

The nutmeg tree, it is reported, is found in the Sierra Nevada range in California.—The San Mateo, (Cal.) *Gazette* says that some years ago nutmegs, equal in strength and flavor to those of the East Indies, were plucked on the head waters of the Feather river, Placer county. The tree, it is reported, resembles a species of pine.

Some of the New York editors have their residences and offices connected by telegraph lines.

One patent medicine manufacturer advertises in twenty five hundred papers in this country.

The Boston *Post* says Grant has made one thousand appointments and one hundred thousand disappointments.

House rents are reported to have declined one-third in Brooklyn, the supply of dwellings being in excess of the demand.

The Hoosac tunnel, it is asserted, when completd, will cost the State of Massachusetts the large amount of sixteen millions of dollars.

The New York police commissioners, being paid only $7,000 each a year, want an increase of salary.

A fellow out West advertises a fugacious wife, who he says "has left him just as his summer's work is beginning, notwithstanding he has had the expense of wintering her."

A young clerk in the Central Telegraph Office in France has discovered a very ingenious plan for the rapid self-printing of dispatches, and has been offered 300,000 francs for his patent.

Three gentlemen of Chicago, it is said have clubbed together and ordered three copies of Longfellow's "Dent," to be illustrated with Dore's and Flaxman's designs, and many of the rare Dante prints. Only three copies will be printed, and the cost will be $1,000 per copy.

The Italians are very uneasy about the Œcumenic Council. They fear that an election of Pope may be made by all the Bishops of the Church of the Universe, which will make them a minority. They, therefore, strive to defeat the Council altogether.

According to Mayor Fox, at a dinner speech, Philadelphia has 156 miles of territory. He also stated that, with the large population of 850,000 persons, there were but 320 police officers on duty at night.

Dr. Brown Siquard reports a curious case of a dog which had just died having fresh blood passed into the carotid. The dead animal was revived, stood on his feet, wagged his tail, and lived over twelve hours, when he died again.

The Arizona cotton factory, established in Claiborne parish, Louisiana, since the war, is now paying a net profit of twenty-four per cent. per annum. This income is realized on a capital of $80,000, and with a part of the machinery counted in the capital, not yet at work.

Scientific men say that the time of the diurnal revolution of the earth is gradually being shortened, on account of the shrinkage of the earth by cooling in the interior.

Spain having failed in its quest of a King, is now thinking of a Directory. M. Castelar, a Republican, made a powerful speech against the Catholic Church and in favor of religious freedom. When he concluded the members crowded around him and hugged and kissed him. The Speaker left his seat to give him a cordial embrace and a kiss on both cheeks. Beautiful enthusiasm! In a month they may be cutting each other's throats!

A writer now in Rome says that the dirtiest people on the face of the earth are the Romans. He thinks our reputation for being the best expectorators is not deserved. We cannot beat the Italians. Men, women and children make the floors of the churches during worship, not excepting St. Peter's filthy beyond description.

One of the most fruitful topics of discussion among English scientists and philosophers is the value of Auguste Comte's contributions to the higher departments of modern thought. John Stuart Mill gives high praise to his system of positive philosophy, but regards his "Religion of Humanity" as the dream of a crazed though noble intellect. Herbert Spencer criticises Comte's "Genesis of the Sciences" adversely, and declares he could not read, much less study, all his works; while Professor Huxley can find nothing of any scientific value in the writings of this man, who is regarded by his disciples as the greatest philosopher of this or any other age. Just now this discussion is raging in England so fiercely as to take up columns in daily papers like the *Pall Mall Gazette*. In that country Mr. Richard Congreive, Frederick Harrison, Professor Beagley, and Dr. Bridges have taken up the cudgels for Comte, and go so far as to declare that there is nothing of any philosophical value in the writings of his critics but what they appropriated from the man they attempt to depreciate. Of course, this controversy must have its echo in this country, and we reproduce elsewhere an extract from a discourse by Mr. Henry Edger, delivered yesterday in this city, in which he attempts to answer some of the attacks made upon the so called "Religion of Humanity."—*N. Y. World.*

Rev. Dr. Breckinridge has recovered his health sufficiently to resume the duties of his professorship in the Kentucky Theological Seminary.

The "oldest Mason" has now turned up in Canada, in the person of Charles McKeown, who was "raised" in Ireland in 1776.

English Professor Bosworth announces that he hopes to finish his Anglo-Saxon dictionary "in three or four years."

FIRE INSURANCE.—It is a matter of congratulation that so general an interest is being manifested in behalf of the N. C Home Insurance Company of this city.—Its business is daily increasing and its risks are diffused all over the State—a sure and pleasing evidence of growing popularity There is every reason to hope that it will soon stand as high as any Company in the country. It rests altogether with our own people to secure the desirable result. See advertisement in another column.

MILTONIAN TABLEAUX.—This beautiful Exhibition opens at Tucker Hall to-morrow night and doubtless will attract crowded houses during its stay here. To avoid confusion at the door, tickets will be on sale at Messrs. Williams & Lambeth's Bookstore, where they can be obtained during the day without extra charge.

MAJ. SEATON GALES.—We have known for some weeks that this well known citizen, so long associated with the press of the State, has been invited to deliver the Literary Address at the next Annual Commencement of Davidson College. He has accepted the invitation. The Major is an unusually graceful writer, and a tasteful and appropriate address may be expected.

OUR friend Joel P. Hill, of Stokes, has placed us under obligations by sending a club of subscribers. Many thanks. Who will be the next to favor us?

COLD SNAP.—The weather is extremely cool for the season. Vegetation will be retarded. The cotton, we would think, would be especially injured.

WE learn that Col. A. A. McKoy, of Clinton, will deliver the oration before the Pittsboro' Scientific Academy, on the occasion of the next commencement on the 10th and 11th of June.

HALIFAX.—We have added to our mail books this week the names of fifty subscribers from this old county. There is room for others still. Send on your names.

OUR farmers ought, by all means, to plant a plenty of corn. Do not let the high price of cotton induce you to neglect the cereals.

WE have received a large pamphlet of 246 pages containing the "fortieth annual report of the Board of Commissioners of public schools" of the city of Baltimore, Md., for 1868. It is exceedingly well printed and contains a number of lithographs and wood cuts of the public schools and seminaries of that city.

DISTRESSING ACCIDENT.—We regret to learn that Dr. George Rives, of Prince George county, Virginia, killed his wife a few days ago by the accidental discharge of his gun. He had been but recently married.

There could hardly be a better proof of the good nature of the Southern people than the reception in Mobile, Montgomery, and other Southern cities, of an excursion party of a hundred and twenty Illinois Radical editors and their families, who have been peregrinating down South on "dead head" tickets, and "accepting the hospitalities" of municipal governments, Boards of Trade, and "citizens representing all shades of political opinion." The annual delight of the provincial newspaper man is to do precisely this sort of thing, and as the Illinois party were so well treated, it is not surprising that they, "one and all, expressed themselves perfectly delighted with what they have seen for themselves in their progress South." If these same Radical editors, when they get back to their sanctums in Illinois, do not turn and snap at the hands of those who fed them and use the information they have obtained to construct new and ingenious slanders against the South, they will be, in one respect at least, gratifying exceptions to their kind.—*N. Y. World.*

BISHOP WIGHTMAN, OF SOUTH CAROLINA.—The Rev. Bishop Wightman, of Charleston, S. C., a Bishop of the Methodist Episcopal Church, South, preached on Sunday, both morning and evening, at the Church of the Strangers, in the New York University Chapel, on Washington square, of which the Rev. Dr. Deems, formerly of North Carolina, is pastor. The Bishop was on his way to St. Louis to attend to some official business, and was prevailed upon by his old friend, Dr. Deems, to remain with him over Sunday. This is probably the first time that a Southern Methodist bishop has preached in this city since the great division of the Church, which took place in 1844.—*N. Y. World.*

The *N. Y. Times*, (radical) in speaking of the various schemes for plundering the Treasury, says:—"It is perfectly true that the Republicans have a majority in both Houses, and have the votes to stop this sort of stealing, if they wanted to. The inference is irresistable that they don't want to. Honesty is not one of the principles of the party—is never insisted on as a party measure."

In view of some of Grant's appointments, what has become of the old-time twaddle about our never dying obligations to "the men who upheld the country's flag in the hour of trial?" Here is a case in point. General Dubbin Ward fought against Gen. Longstreet at Chicamauga. Result: Grant appoints Longstreet to a fat Federal office in New Orleans, and turns out Ward from the Attorneyship of the Southern District of Ohio. In the lull talk about "the old flag," the flags somehow seemed to have got a little mixed.—*N. Y. World.*

The engine of the night train from Rutland to Burlington, Vt., while running at the rate of forty miles an hour last Friday, picked up a yearling calf from the track and threw him on the engine's front, under the handlight, without hurting him a particle. The train was stopped, and the animal sent back to the roadside.

STATE NEWS.

BOLD ATTEMPT TO ESCAPE FROM JAIL.—Saturday night last Wm. H. Payne (white) and Henry Larkins (colored,) prisoners in the county jail, confined for larceny, made a bold attempt to escape from custody.—They were lodged in the debtors' room and while the jailor was at supper, and before the night watchman arrived, they succeeded with a glass bottle, in which some medicine had been left by the attending physician, in forcing a hole through the ceiling into the loft. About 10 o'clock they succeeded in crawling up through this hole and got between the roof and the ceiling and crawled to the front portion of the building where the jailor and family reside. While descending they were heard by the watchman inside the jail, who gave the alarm to the jailer. Meantime Payne had descended through the hole beneath the scuttle, and after waiting until he thought all was quiet, proceeded in the attempt to make his way through the front door of the jail building. Here the jailer lay in wait, and as soon as Payne placed his hand upon the knob, the jailer seized him and presented his pistol. Payne's fright can be better imagined than described. On searching, Henry Larkins was found secreted in the loft near the water tank. Both were then securely lodged in strong cells and the jail was once more quiet.—*Wil. Journal.*

PRISONERS ESCAPED FROM KINSTON JAIL.—Two men named Ash Davaugn and James Hines were arrested by Sheriff Cox last Saturday on the charge of horse stealing, and lodged in Jail in Kinston. About 1 o'clock Monday morning they were heard to shout, and on examination it was ascertained that they had escaped.

No marks of violence were found on the inside of the Jail, but on the outside of the outside door, marks were found as if made by a hammer. No bolts nor bars were broken, and it is the opinion of Kinston people that it was a "put up job" in some way, and we hope soon to have some insight into the affair. The Jail is now as secure and perfect as any in the State, and it seems impossible that these men should escape without help.—*Newbern Times.*

WILMINGTON AND MANCHESTER RAILROAD FOR SALE.—Attention is directed to the sale of the Wilmington and Manchester Railroad advertised in this issue by Morris K. Jesup, Trustee. The sale will take place on the 23d June at public auction at the Exchange Sales Room in New York city. It will be made for cash to the highest bidder. The advantages possessed by this road are too well known, even abroad, to require description. We trust it will be purchased by parties fully competent to make it a first-class road and a benefit to the entire section through which it passes.—*Wil. Journal.*

FROST.—A considerable frost fell upon the line of the Wilmington, Charlotte and Rutherford Railroad Sunday night as far down as Shoe Heel. It is thought that considerable damage has been caused the young crops.—*Ib.*

The wind Saturday night did a good deal of damage to the trees in this city. Some were torn up by the roots, and many branches were strewed in the street.—*Newbern Times.*

A Sunday School celebration and convention of the Flat River Association will be held at Oxford, on Saturday before the 5th, Lord's day, in May. The pastors, schools and friends of the work are earnestly requested to attend.—*Biblical Recorder.*

The *Standard* says: "The Democratic party of North Carolina is eminently entitled to be called the Sorehead party. The Radical party of North Carolina has not only a sore head, but is a mass of *corruption* from the crown of its head to the soles of its feet.—*Wil. Star.*

PATENTS.—Among the patents granted to Southern inventors for the week ending April 20th, 1869, we find the following from this city: Materials for journals and bearings, and for lubricating—A. B. Jones; Still, for turpentine and other substances—Robert W. Lamb.

In addition to these we find the following from other points of the State: Horse-shoe—J. H. Tyer, Martin county; Plow—W. S. Winsboro.'—*Wil. Journal.*

CAPE FEAR AGRICULTURAL ASSOCIATION.—Dr. S. S. Satchell has been elected a member of the Executive committee in place of Major J. S. Hines, resigned. Dr. Satchell has accepted.

We learn that the Executive committee are engaged in calling upon our citizens for aid to provide the necessary buildings to hold a Fair next Fall, and that our business men are responding with their characteristic liberality. We suppose there is no longer a doubt in regard to the holding a Fair in November.—*Ib*

The *Standard* has assumed a desperate attitude, assailing the Democratic press of the State with a venom that shows the serpent *scented* within its folds. Give it rope enough and it will soon hang itself.—*Weldon News.*

The most interesting sight we have seen lately is a young man, "free, white and twenty-one," holding his hands in idleness while his father stands behind a plow.—We would implore the next session of the Legislature to give such young men something to do—if it be only the combing of the wool of its sooty members.—*Ib.*

A CONFERENCE BETWEEN PRESIDENT GRANT AND GEN. LEE.

WASHINGTON, May 2—The Conference between the President and General Lee, at the White House yesterday, was longer than has been reported, lasting nearly an hour. While the interview was of a polite and courteous character, there was manifested on the part of each a certain reserve, and there was the utmost dignity preserved.—No reference was made to their relative positions during the war, but after the exchange of personal civilities the conversation turned on the condition of the South and the present aspect of affairs in Virginia. Gen. Lee made several suggestions at the request of the President respecting the submission of the new Constitution to the vote of the people, and thought it important that they should have the right to a separate vote on the disfranchising clause, and that there should be separate votes on clauses affecting the local interests, when railroads and other improvements are to be made. Gen. Lee favors the Fifteenth Amendment, and approves the action of the recent Conservative Convention at Richmond. He does not believe that the enfranchisement of the negroes will work such prodigious harm as has been predicted by some men North and South. He holds that it is of first importance that not only Virginia, but all the Southern States, should be in practical accord with the Federal Government, and have full representation in both Houses of Congress, and when that is affected, all collateral and minor questions will adjust themselves satisfactorily.—*N. Y. Tribune.*

TELEGRAPHIC.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, May 5.—The announcement of Simms' appointment of Postmaster at Savannah are probably premature. His commission has not yet been ordered at the appointment office.—The Cuban Constitution for that republic has been prepared in this city. The framers acted on the assumption that Cubans will attain their independence and like Texas deserve annexation. The Constitution provides for one or more States in Cuba. Leading members of Congress are participating in this movement, but as far as known the federal executive has taken no interest in the matter beyond tacitly authorizing the sale of useless or surplus war material to any applicant.

It has transpired that Secretary Boutwell has appointed H. C. Whitesey, of Boston, who was a prominent detective with Butler in New Orleans, Chief Treasury Detective.

ENGLAND.

LONDON, May 5.—The London *Times* this morning has another leading article on the Alabama treaty recently rejected by the United States Senate. The writer sharply criticises the speech of Mr. Sumner and concludes as follows:

"The question is one of law and not of feeling. It remains to be shown that Great Britain can be held answerable for any infraction of law or excess over the ordinary practice of both countries."

Gov. Wells obtained nothing satisfactory from yesterday's visit to the President.

The Virginia election will not be held until a thorough registration is completed and until Gen. Canby, who is not yet thoroughly acquainted with the political situation, shall recommend the most convenient period for the election.

The President seems in no hurry respecting the three States involved.

Dispatches from J. Ross Browne confirm English diplomatic reports that the Chinese government opposes progress, and will not willingly ratify Burlingame's treaties.

New patents have been issued for extracting oil from cotton seed and for a new cotton gin.

Col. Wood, chief detective of the Treasury Department, has resigned on compulsion. Wood is notorious in connection with old Capitol prison. The name of his successor is withheld.

The War Department has been advised that Capt. B. H. Hinkness of the 35th. Infantry, was killed while pursuing deserters near Fort Bliss, Texas.

CUBA.

HAVANA May 5.—Commodore Hoff, on April 29th. reports his arrival at Havana on the 26th. from a short cruise. He says he found upon his arrival, political matters in Cuba exceedingly quiet.

An expedition, supposed to have sailed from Yucatan consisting of a large steamer and several sailing vessels, attempted to land men and arms for Cubans on the south side in the western department near a place known as Pinar Del Rio, but failed.

The Spanish Admiral left Havana in his flag ship, accompanied by several other vessels, in search of this party. No news has yet been received from him.

FROM NEW YORK.

NEW YORK, May 5.—This morning's *Tribune* has the following: "Several gentlemen who participated in the recent Convention in Virginia have arrived here, and were at the White House to day for the purpose of urging the President to endorse the action of that Convention. They also wish to get the President to fix as early a day as possible for holding their election. The President did not indicate what action he would take in the matter, but said he would confer with Gen. Canby, who no doubt, fully understood the condition of affairs in the State, and who would advise him of the time most acceptable to a majority of the people. The President will not be drawn into the support of any of the political parties in that State. He will allow them to work out their political future in their own way.

THE COTTON CATERPILLAR.

CHARLESTON, May 5.—Reliable information from Florida mentions the appearance of the cotton Caterpillar in that section. Telegrams have been received here stating that the genuine Cotton Caterpillar is at Ocala, Fla.

FROM WILMINGTON.

AFTERNOON DISPATCHES.

WHIM WHAMS.

Sheridan gives the following humorous definition: Irishman—a machine for converting potatoes into human nature.

"Give me," said Herder to his son, as he lay in the parched weariness of his last illness, "a great thought, that I many quicken myself with it."

The old riddle, "Why is a bald man's head like Paradise?" being rehearsed to Lord Derby with its answer, "Because it is a bright and shining place, where there's no parting or deying," the Earl added, "And, thank goodness, where there are no more Whigs."

Riches, honors, and pleasures are the sweets which destroy the mind's appetite for its heavenly food; poverty, disgrace, and pain are the bitters which restore it.

"My son," said an old man, "beware of prejudices. They are like rats, and men's minds are like traps; prejudices get in easily, but it is doubtful if they ever get out."

He is the hardest laborer who drives the brain only; and he is the most reasonable worker who judiciously divides the responsibilities and duties between brain and muscle.

"Jenny," said a Scotch minister, stooping from his pulpit, "have ye a pesn about ye?" "Yes, minister." "Then stick it into that sleeping brute o' a man o' yours by your side."

The *Standard* opposes "Imperialism," and glories in the present "Republican government," worked for the interest alone of the party it represents, and which does not regard the welfare of the people. Better "Imperialism" with some show of honesty, than despotism with a fiendish party to back it.—*Ib.*

SCOTLAND NECK RAILROAD.—The charter for the Scotland Neck Railroad and Steamboat line to Weldon having been granted by the late Legislature, and signed by the Governor, we learn with pleasure that it is the intention of the people of the Scotland Neck section and along the line of the Roanoke to go to work at once procuring the required stock.—*Ib.*

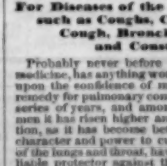
Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pills*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

ROSY LIPS.

Rosy lips, rosy lips what can you do,
Looking so pretty and sweet?
Nothing but sweetness can pass over you
Nothing but good you repeat

Rosy lips, rosy lips, can it be true?
Such a sad story I heard,
Out of those gates there has often passed through
Many a mischievous word?

Rosy lips, rosy lips, bar up the door,
Prison the traitors within;
Stain not the beautiful gates any more
With the dark victims of sin.

Out of the roses the honey bee sips
Only the sweetest of dew;
So with my kisses I'd take, rosy lips,
Nothing but sweetness from you.

Wheedon's Excelsior Labor-Saving
WASHING COMPOUND.
Patented Sept. 22, 1868.
REASONS FOR PREFERRING THIS SOAP.
The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:
First, it can be manufactured at less than half the cost of any soap ever produced.
Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft
Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.
Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.
Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.
Chartered by Special Act of Congress, Approved July 25th, 1868.
CASH CAPITAL,
$1,000,000,
PAID IN FULL.
It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.
If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.
With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so muddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the
NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,
and finds just what he wants:
An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.
He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the
NATIONAL
presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of
$1,000,000
as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.
The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,003,320.00
Total Premiums,	320,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 892
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phœnix Mutual, 335
" Massachusetts Mutual, 313
" Equitable of New York, 277
The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, 1,269 "
And in its 20th year, 2,842 "
this latter being 600 less than was issued by the NATIONAL in its first seven months.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph, will be carefully collated and presented.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."
In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.
THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.
This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.
The hot suds and steam, by the action of heat, are driven up through suction pipes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest lace to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.
The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process
Washing day will not ager be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.
The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.
No invention has met with such ready sale and given such satisfaction. Call at LOGUE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state
